MY HEATHY PLEDGE – FOR MY HEALTHY LIFESTYLE

On this day and every day, I will pledge myself now, my family, my friends and my future self that I will follow a healthy lifestyle.

- I will be kind to myself and be aware of my strengths and weaknesses.
- I understand that eating healthy is a way of life and I will start eating better with better food shopping habits, planning and eating habits.
- I will drink more alkaline water and flush toxins out of my body. I will understand the benefits of keeping my body hydrated.
- I will make a weekly eating and exercise plan - keeping focused on my health goals.
- I will focus on getting more active, join the gym with Amine and surround myself by active friends telling them my goals.
- I will increase my knowledge on a healthy body and experiment with new healthy foods and recipes.
- I will take control of any health issues and seek help to overcome health challenges.
- I will have motivation, willpower and consistency for a healthier me.
- I will support others who have similar goals and encourage others around me too to lead a healthy lifestyle.
- I will not beat myself up if I have a bad day. The next day is always a new day.
- I have the inner power to be healthy now and in my future.
- I will surround myself with positive, inspirational people building a healthy body and a healthy mindset – tapping into good health coaches.
- If I struggle, I will seek help and guidance from others and recognise this is strength, not a weakness – giving health my time and focus.
- I will celebrate with my new body and enjoy my new lease of life.
- I will make this healthy process enjoyable, fun and I am excited to be more fabulous this year.

I GIVE MY BODY WHAT IT NEEDS NOT WHAT IT CRAVES

My personal goals for this year are:

- My ideal dress size will be size
- I will be ... stone – ... kg - ... lbs
- I want to feel: healthier, stronger, fitter, with more energy, looking good in my clothes, going on holiday and feeling great)
